

Piedmont Triad Conceptual Regional Trail Plan & Inventory
Davie and Davidson County Notes
October 8, 2009 – 6pm
Government Center, Lexington, NC

7 attendees, not including staff

Guy Cornman, Davidson County Planning Director opened the meeting and discussed some of the local efforts for trail planning and building in Davidson County. Darrell McBane, State Trails Program Director and Jesse Day, PTCOG Regional Planner summarized the Mountains to Sea Trail efforts and other similar regional trail plan efforts across the State. Travis Morehead from the Carolina Thread Trail gave a brief overview of their trail planning efforts.

The small group of trail advocates were supportive of the conceptual regional trail plan and were primarily concerned with expanding access to horse and multi-use trails. There were two groups working on trail priorities:

Group 1 Priorities:

- Construct Abbotts Creek trail from Lake Thom-A-Lex to Finch Park
- Create trail access along the Yadkin River from Wilcox Bridge to Boone's Cave
- Connect Old County Landfill trails to Abbott's Creek corridor

Group 2 Priorities

- Develop trail and access improvements around Wilcox Bridge
- Create connections from Mocksville and Cooleemee towards Rowan County and the Carolina Thread Trail
- Sign bicycle routes along new Scenic Byways in Denton area.
